

G-CODE CONTACT

IMMEDIATE ACTION READY

G-CODE CONTACT

G-Code Contact is a line of immediate action platforms with components hand picked from our catalog and assembled into fighting load outs based on requirements from special operations warfighters currently overseas.

From belt systems to chest rigs, G-Code Contact systems are designed to be worn on your person, under clothing, or to travel with you in a day pack or other small bag where they can be quickly donned for combat use.

2x2 MICRO CHEST RIG

A single layer of G-Code Scorpion rifle(2) and pistol(2) pouches delivers speed and utility in a easy to conceal, minimalist chest rig.

3x3 MICRO CHEST RIG

Featuring three G-Code Scorpion rifle-pistol stacked pouches, the 3 x 3 occupies the same footprint as the 2 x 2 but with an extra rifle and pistol magazine capability.

THE TRAVELER CHEST RIG

Two G-Code Scorpion rifle pouches, one rifle-pistol stack pouch, a medium GP pouch and a long GP suspension pouch create a platform for additional capabilities that range from emergency medical kits to breacher systems to signaling devices to documentation/recording systems.

The Traveler also includes a discreet stand alone System Bag that can be left in place or carried as part of an EDC without raising eyebrows in daily life.

THE SCORPION STACK BELT

Two G-Code Scorpion rifle-pistol stack pouches, a single rifle-double pistol stack pouch, a RTI Adaptor and a RTI Optimal Drop Pistol Platform ride on a G-Code Operator Belt, creating a combat ready system that delivers fast access to vital equipment at your center of gravity.

Note: Pictured with an RTI Soft Pouch, not included in base system.

Note: Pictured with an RTI Soft Pouch, not included in base system.

THE SCORPION LOW VIZ BELT

Three G-Code Scorpion rifle pouches, three pistol pouches, an RTI Adaptor and a RTI Optimal Drop Pistol Platform ride on a G-Code Operator Belt, creating a low profile fighting system that can easily hide in plain sight with minimal concealment layering.

THE COVERT BELT

A dual rifle magazine D3 Carrier pouch, two single pistol magazine pouches, a RTI Adaptor and a RTI Optimal Drop Pistol Platform ride on a G-Code Operator Belt, giving the end user a quick-don belt that can easily be stored in a daypack or stored under a car seat, fully loaded out.

Note: Pictured with an RTI Soft Pouch, not included in base system.
